

Become an accessibility superstar for the National Marine Sanctuary System

VIRTUAL STUDENT FEDERAL SERVICE

Project Title	Become an accessibility superstar for the National Marine Sanctuary System
Project Summary	Help national marine sanctuaries become more accessible to the public online and in person!
Country	United States

Project Description

We invite you to join a dedicated and enthusiastic team at the NOAA Office of National Marine Sanctuaries (sanctuaries.noaa.gov). We serve as the trustee for a network of underwater parks encompassing more than 600,000 square miles of marine and Great Lakes waters. The network includes 13 national marine sanctuaries all across the country – from just off Cape Cod to American Samoa – and Papahānaumokuākea and Rose Atoll marine national monuments.

As part of our team, you’ll lead the way toward a more accessible sanctuary system. We’re looking for someone who can compile best practices for Section 508 and the Americans with Disabilities Act, and conduct an audit for our outreach materials and exhibits to see how we can do better.

You’ll be working with the national outreach coordinator and the social media coordinator/writer/editor. We’ll get you up to speed on everything we know about accessibility and connect you to experts at the NOAA Library. If you want to become an accessibility champion, this project is for you.
